**A One Day Workshop on
“BOOT CAMP for Penetration testing”
The workshop conducted on 04-08-2018.**

**In VPS college of Arts, Science and Commerce-Lonavala.
B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.).**

Detail Report of Workshop:

Title: Workshop on Boot camp for penetration Testing:-

The Department of Computer Science, VPS college of Arts, Science and Commerce-Lonavala. B.B.A.(Comp.App) & B.Sc(Comp.Sci.).

Organized "Two days Workshop on **"Boot camp for penetration testing"** during 04-08-2018.

Resource person: Boot camp learning academy

About workshop:

In this 1-day boot camp, you have learned everything there is to know about penetration testing, from the use of network reconnaissance tools to the writing of custom zero-day buffer overflow exploits. The goal of workshop is to help you master a repeatable, documentable penetration testing methodology that can be used in an ethical penetration testing or hacking situation.

This penetration testing training course has a significant return on investment: you walk out the door with hacking skills that are highly in demand.

Testing methodologies-

- Security testing methodologies
- The ethical hacking profession
- Planning and scoping an engagement
- Legal and compliance consideration
- Abusing DNS
- Security testing methodologies

Students have attended this workshop:45

Conclusion: A penetration test report provides a detailed and comprehensive analysis of the system's vulnerabilities. It will also detail how to mitigate those issues, including recommendations for patching, hardening or locking down specific systems where needed.

Students have attended this workshop: 60

About workshop:

The Department of Computer Science, VPS college of Arts, Science and Commerce-Lonavala. B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.). Organized "Social awareness on the signs and symptoms of breast cancer" during 12-10-2018.

Topics:

- Breast cancer is the most common cancer amongst women in India.
- Breast cancer occurs when some breast cells begin to grow abnormally. These cells divide more rapidly than healthy cells and continue to gather, forming a lump or mass. The cells may spread (metastasize) to the lymph nodes or other parts of the body. Breast cancer mostly begins with cells in the milk-producing ducts (invasive ductal carcinoma) or in the glandular tissue called lobules (invasive lobular carcinoma) or in other cells or tissue within the breast.
- More affluent women in all racial and ethnic groups have a higher risk of developing breast cancer than less affluent women in the same groups.

Conclusion: Breast cancer is the most common type of tumor in women in most parts of the world. Although stabilized in Western countries, its incidence is increasing in other continents.

Detail Report of Workshop:

Title: LED bulb Assembly and Entrepreneurship Development

Resource person: Mr Vishal Pawar from ATSS College

Students have attended this workshop: 45

About workshop:

The Department of Electronics, VPS college of Arts, Science and Commerce-Lonaval. B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.). organized "Two days Workshop on "LED bulb Assembly and Entrepreneurship Development" during 08-01-2019.

LED products are more in demand in both the local and international markets; anyone can start an LED bulb manufacturing firm, whether alone or in a group. LED light manufacturing is a very profitable business that can start with little money. The LED bulb unit is the subject of this pre-feasibility report. The purpose of the LED bulb manufacturing project report is to provide information to future entrepreneurs.

Conclusion

Setting up LED Bulb business needs a well written business project report that includes every crucial fact about this business like market feasibility, future of business, legalities, quality, production etc. This business can rise the demand for LED Bulbs in a short time period and it is a continuous business that can expand sales throughout the years. You just need to follow all the guidelines mentioned in our project report.

Detail Report of Workshop:

Title: Machine learning through Python

Resource person: Trainers from ROBOSOL Mumbai

About workshop: “Machine learning through Python”:

The Department of Computer Science, VPS college of Arts, Science and Commerce-Lonavala. B.B.A.(Comp.Application)& B.Sc.(Comp.Sci.). Organized “Two days Workshop on “Machine learning through Python” during 09-12-2019 & 10-12-2019.

Machine Learning (ML) is basically that field of computer science with the help of which computer systems can provide sense to data in much the same way as human beings do. In simple words, ML is a type of artificial intelligence that extracts patterns out of raw data by using an algorithm or method.

Python programming language is having the features of Java and C both. It is having the elegant ‘C’ code and on the other hand, it is having classes and objects like Java for object-oriented programming. It is an interpreted language, which means the source code of Python program. Would be first converted into byte code and then executed by Python virtual machine.

Topics of Workshop:

- Installing Python
- Strengths and Weaknesses of Python
- Why Python for Data Science?
- Jupiter Notebook

About workshop:

The Department of Electronics, VPS college of Arts, Science and Commerce-Lonavala. B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.). Organized "**One day Yoga Training**" during 05/12/2019

Sukshma yoga is the system of yogic practices which loosens your joints and removes the energy blockages. This system has a strong purifying effect thus, boosting the body energy.

Benefits The Sukshma Vyayama is beneficial in various aspects, some of these are :

- Removes blockages and tightness in muscles and strengthens them.

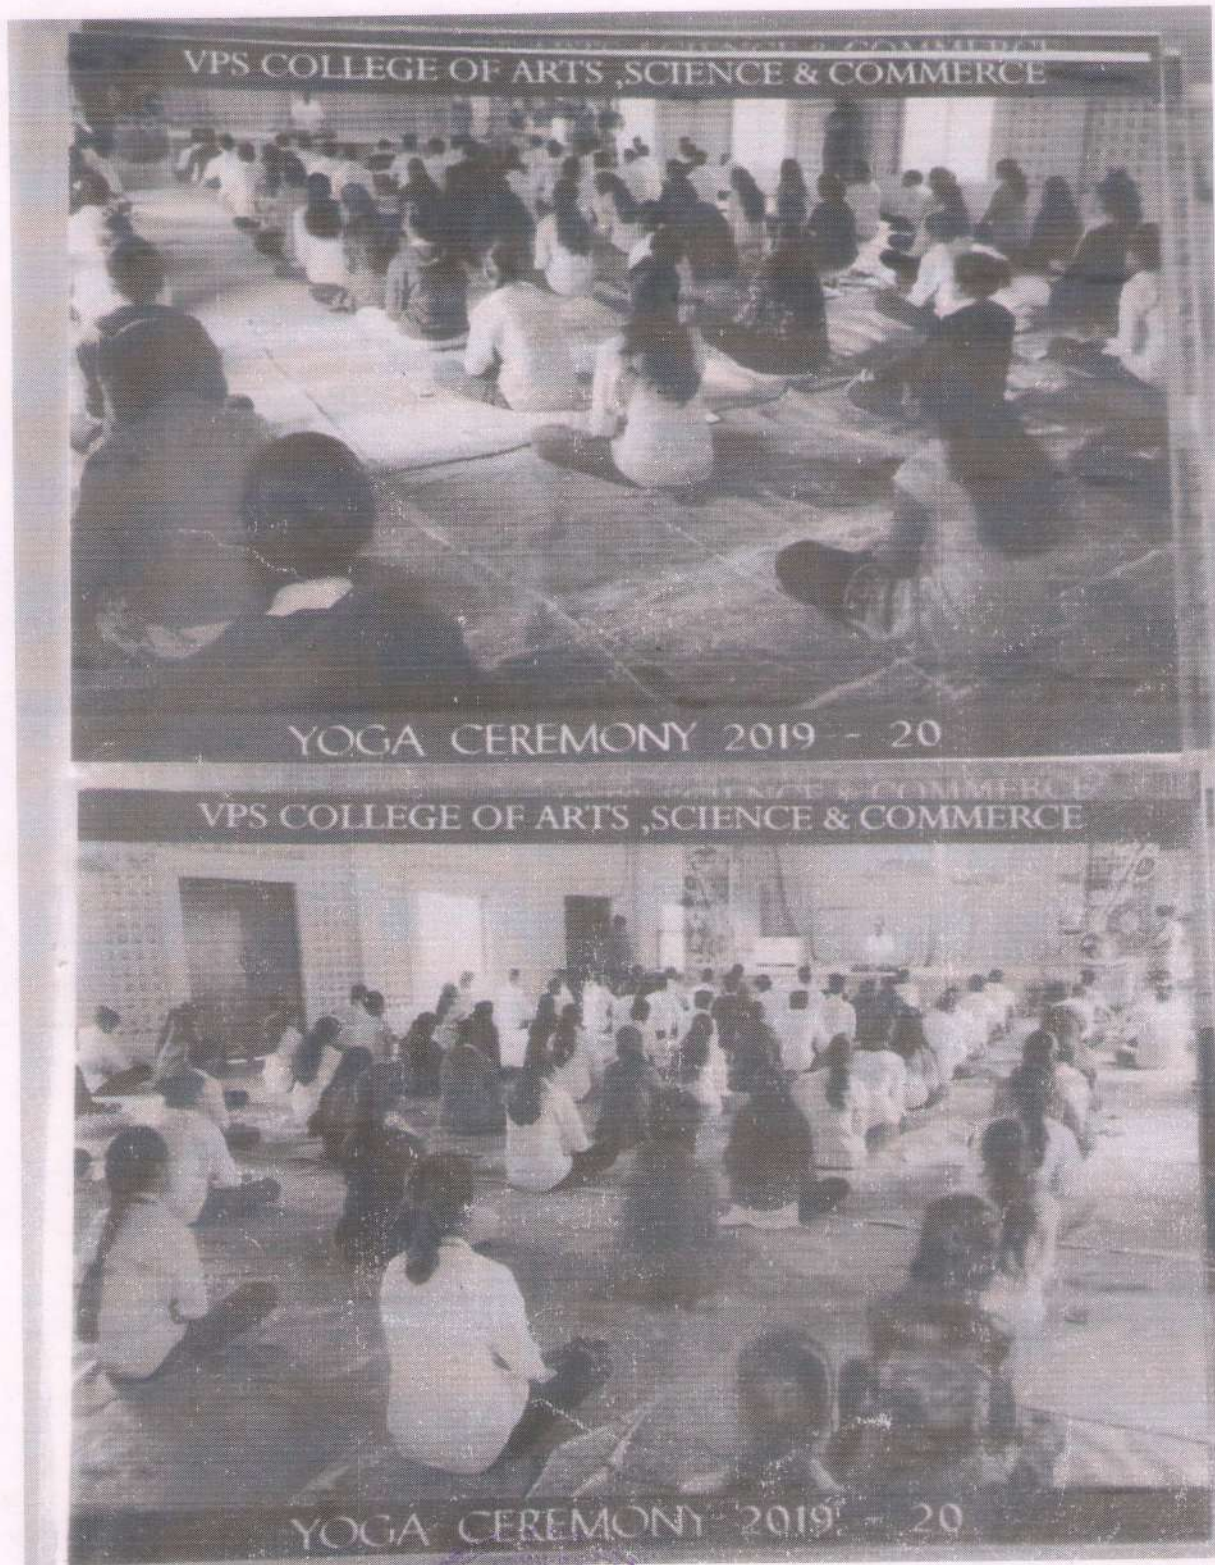

Increases body mobility and making it flexible.

- Develops coordination and equilibrium.
- Improves blood circulation.

Conclusion:

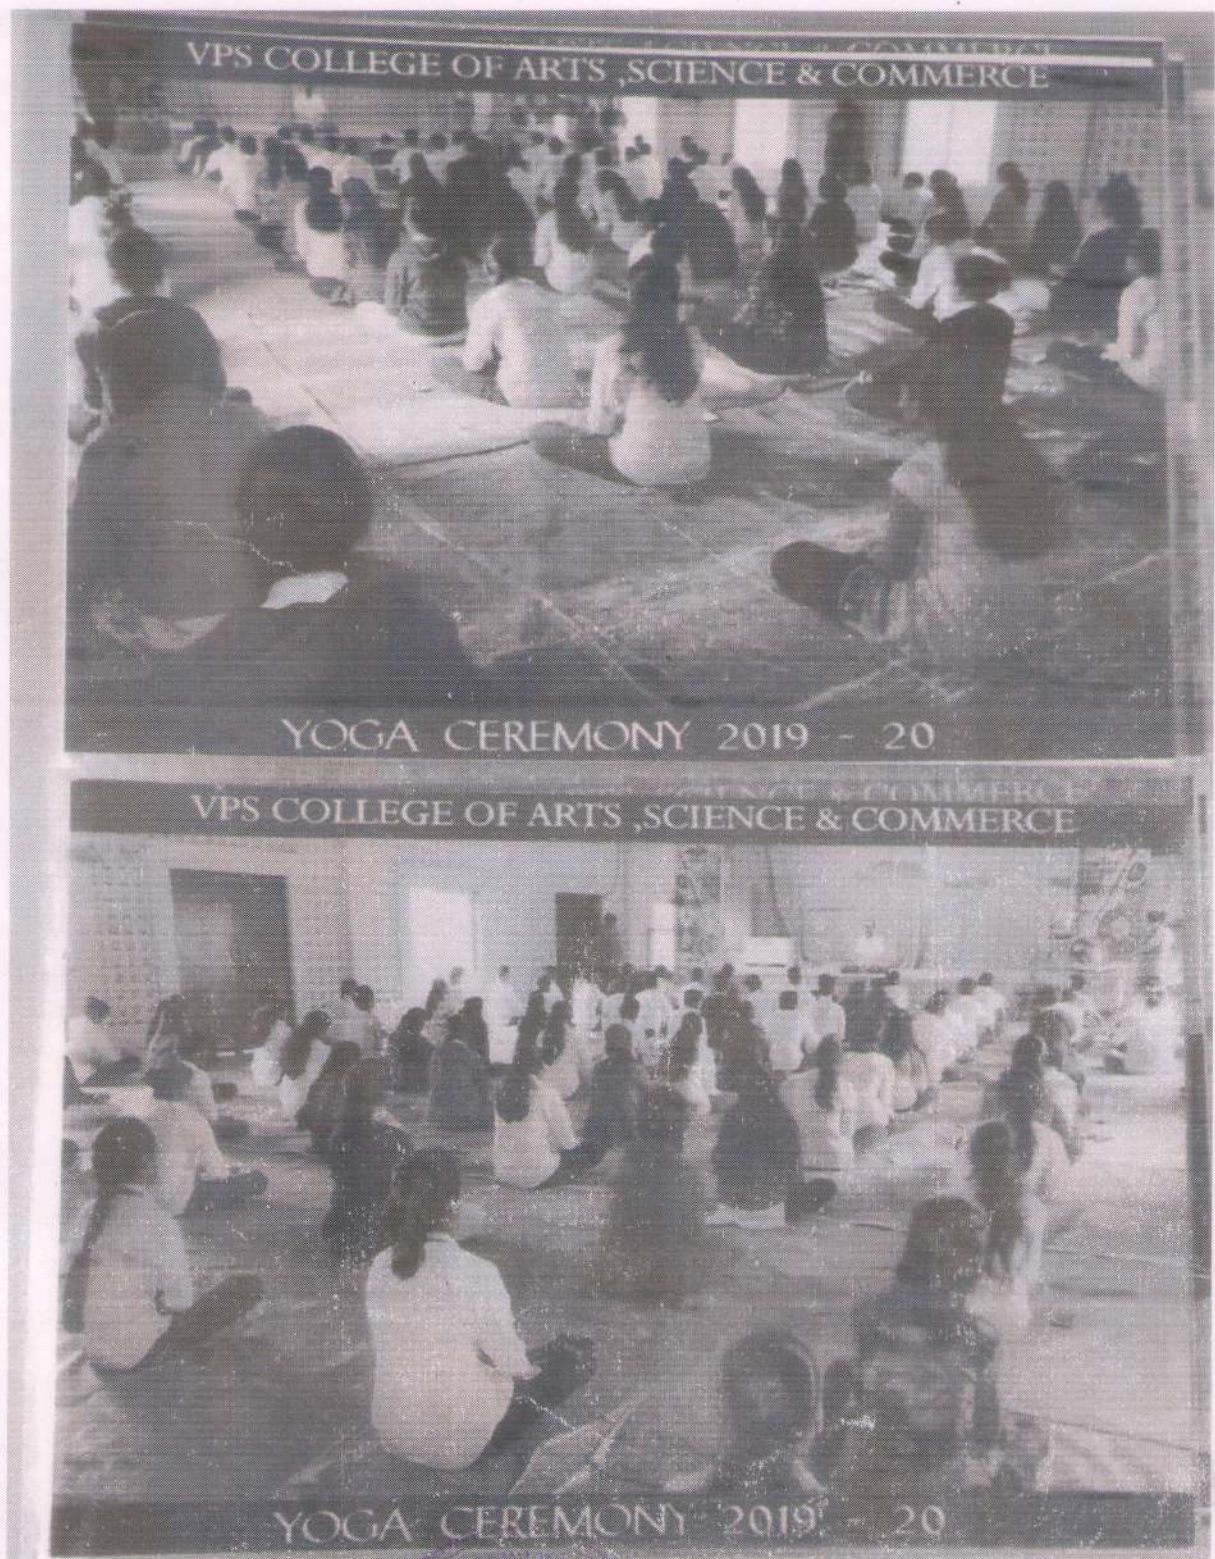

The purpose of Yoga is to create harmony in the physical, vital, mental, psychological and spiritual aspects of the human being.

Title: "Social awareness on the signs and symptoms of breast cancer"

Resource person: Dr. Vijay gokhale, Cancer Awareness Foundation (Karjat)

Students have attended this workshop: 100

About workshop:

The Department of Computer Science, VPS college of Arts, Science and Commerce-Lonavala. B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.). Organized **"Social awareness on the signs and symptoms of breast cancer"** on **21-12-2019**.

Topics:

- Breast cancer is the most common cancer amongst women in India.
- Breast cancer occurs when some breast cells begin to grow abnormally. These cells divide more rapidly than healthy cells and continue to gather, forming a lump or mass. The cells may spread (metastasize) to the lymph nodes or other parts of the body. Breast cancer mostly begins with cells in the milk-producing ducts (invasive ductal carcinoma) or in the glandular tissue called lobules (invasive lobular carcinoma) or in other cells or tissue within the breast.
- More affluent women in all racial and ethnic groups have a higher risk of developing breast cancer than less affluent women in the same groups.

Conclusion: Breast cancer is the most common type of tumor in women in most parts of the world. Although stabilized in Western countries, its incidence is increasing in other continents.

A Two Day Workshop on “Internet of Things”

**The workshop conducted on 26-12-2019 & 27-12-2022 in
VPS college of Arts, Science and Commerce-Lonavala.
B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.).**

Report of Workshop on Internet of Things:-

The Department of Electronics, VPS college of Arts, Science and Commerce-Lonaval. B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.). Organized "Two days Workshop on **"INTERNET OF THINGS"** during 26/12/2019 to 27/12/2019.

"If you think that the internet has changed your life, think again. The IOT is about to change it all over again!"

Internet of Things is a new revolution of the Internet. A world where the real, digital and the virtual are converging to create smart environments that make energy, transport, cities and many other areas more intelligent. A device become a smart device is called IOT. Now a days there are many android and server based application.

All the faculty and staff members actively participated in the event to make it a grand success.

Detail Report of Workshop:

Title: Internet of Things

Resource person: Mr. Bhavesh Ahire

About workshop: (What is Internet of Things?)

It's a global network infrastructure, linking physical and virtual objects using cloud computing, data capture, and network communications. It allows devices to communicate with each other, access information on the Internet, store and retrieve data, and interact with users, creating smart, pervasive and always-connected environments.

The Internet of Things (IoT), sometimes referred to as the Internet of Objects, will change everything—including ourselves. This may seem like a bold statement, but consider the impact the Internet already has had on education, communication, business, science, government, and humanity. Clearly, the Internet is one of the most important and powerful creations in all of human history. Now consider that Internet of Things represents the next evolution of the Internet, taking a huge leap in its ability to gather, analyse, and distribute data that we can turn into information, knowledge, and,

ultimately, wisdom. In this context, Internet of Things becomes immensely important.

Duration: It's a Three day workshop From 26/12/2019 to 25/12/2019

In this Two-day course, student gained valuable hands-on experience.

Students have attended this workshop: 98

Topics covered in this Workshop:

Day 1

1. Introduction to Embedded System
2. Introduction to 8051 family
3. Arduino programming
4. Interfacing of seven segment Display with Arduino
5. Interfacing of sensors like LDR with Arduino

Day 2

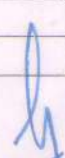

1. Introduction to IOT
2. Introduction to Rajberry pi
3. Rajberry pi Board Explanation
4. Formatting SD card and Installing operating System
5. Controlling of GPIO Pins and Control LEDs with buttons on GPIO Pins
6. Mini Project

Conclusion: In this Workshop, how machine to machine connectivity is rapidly growing everywhere was discussed. Also the business benefits for connected devices and assets for remote location connectivity are instantly cleared.

Report for Study tour for carrier counselling:

The Department of Electronics, VPS college of Arts, Science and Commerce - Lonavala. B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.). Organized "Two days Workshop on **"Study tour for carrier counselling"** during 31-12-2019 & 3-1-2020.

Detail Report of Workshop:

Title: Study tour for carrier counselling

Resource Location: Perfect Company Engg. Tungarli, Lonavala.

Present Students: 60

Why we organized this workshop:

Study tour aims at building life skills such as team work, communication, problem solving skills and decision making that is only obtained through life experience.

What can we learn from educational tour?

While learning in the classroom gives children the opportunity to apply their lessons on hypothetical situations, an educational trip makes them understand real-life issues. Coming up with the solutions to those problems is what enables their transformation into innovative and independent thinkers.

(Comp.Application) & B.Sc.(Comp.Sci.).**

Detail Report of Workshop:

Title: “Women’s self defence program”

Resource person: Danish Sayyed, Radhika Gore

Students have attended this workshop: 80

About workshop:

The Department of Computer Science, VPS college of Arts, Science and Commerce-Lonaval. B.B.A. (Comp.Application) & B.Sc.(Comp.Sci.). Organized **“Women’s self defence program”** during 26-12-2019.

Trainers of above mentioned agency gave how to defence ourselves for all girls and women’s. They explained as-

The more regularly you practice self-defence, the better you become in getting comfortable in your body. You become more aware of your surroundings and how your body moves. Knowing the techniques and being able to practice they can give you a sense of ownership of your physical being and it's empowering.

Conclusion: Self-defence not only allows girls/women’s to tangibly defend themselves against physical attacks, it also sparks various benefits to them in everyday life. Important values and principles can be learned, such as hard work, dedication, and perseverance, as well as the importance of maintaining personal relationships.

Principles of Programming and Algorithms

Total Hours: -32

Pre requisite: Basic Mathematics.

Objectives:

To develop Analytical / Logical thinking and Problem solving capabilities.

Unit No.	Contents
1	Algorithm 1.1 Concept: Problem, Algorithm. 1.2 Characteristics of an algorithm. 1.3 Examples 1.3.1 Addition / Multiplication of integers 1.3.2 Determining if a number is +ve / -ve , even / odd 1.3.3 Maximum of 2 numbers , 3 numbers 1.3.4 Sum of first n numbers, sum of given n numbers , Sum of digits of a given number, sum of first and last digit of a Number. 1.3.5 Digit reversing, Table generation for number n, Factorial of a number, Prime number, Factors of a number, Perfect number, Palindrome number , Armstrong number, GCD And LCM of 2 numbers.
2	Flowchart 2.1 Introduction 2.2 Symbols 2.3 Draw flowcharts for algorithms implemented in chapter 1.

3	Function 3.1 Definition, Syntax. 3.2 Introduction to Library functions : such as pow(),sqrt() etc 3.3 Recursion 3.3.1. Factorial of a number. 3.3.2. Sum of digits of a given number.
4	Array 4.14.2 Introduction Algorithms and Flowcharts using array 4.2.1. Maximum and minimum element from an array 4.2.2.Reversing elements of an array 4.2.3. Mean and Median of n numbers 4.2.4.Row major and Column major representation of an array 4.2.5.Sum of elements of an array 4.2.6.Matrices: Addition, Multiplication, Transpose, Symmetry, upper/lower triangular

R Programming

R-software for Probability in Statistics

Total Hours: 32

- We believe that many foundational ideas of Probability and Statistics are best understood when their natural connection is emphasised. We feel that the interested student should learn the mathematical rigour of Probability through **R- software**, the motivating examples and techniques from Statistics, and an instructive technology to perform computations relating to both in an inclusive manner. These formed our main motivations for introducing the course.

Prerequisite:

Mathematics background up to class 12 is needed. Some minor statistics study is desirable.

- Basic Concepts
- Sampling and Repeated Trials
- Discrete Random Variables
- Summarizing Discrete Random Variables
- Continuous Probabilities and Random Variables
- Summarising Continuous Random Variables
- Sampling and Descriptive Statistics
- Sampling Distributions
- Estimation and Hypothesis Testing
- Linear Regression

Advanced Excel

Microsoft Excel is extremely valuable for IT and businesses, which use it to record expenditures and income, plan budgets and chart data. In fact, it is the very first requirement they ask for when you are applying for a job. So, if you have a basic knowledge of Excel and would like to add further value to your skillset, this course is meant for you.

This advanced Excel course syllabus is designed for the intermediate Excel user who desires to learn more advanced skills. Learn the advanced formulas, functions, charts and types of financial analysis to be an Excel user.

What will you learn?

- Introduction to sheets
- Entering and editing data & text
- Formatting worksheets
- Inserting and deleting columns & rows
- Copy and pasting data & text
- How to build formulas to perform calculations
- Excel menus and toolbars
- Saving workbooks
- Adjusting columns & rows
- Selecting & formatting data
- Using AutoSum for quick calculations
- Printing Excel spreadsheets

- Introduction to the basic Excel functions visually
- Managing large workbooks with Freeze Panes
- Embedding spreadsheets in Word & PowerPoint documents
- Highlighting data with Conditional Formatting
- Understanding Conditional Logic: Using IF statements
- Sorting information using PivotTables
- Working with Named Ranges to speed data updates
- Using basic charts to display data
- Using the Date and Time functions
- Data validation: creating drop-down lists
- Viewing data trends with Pivot Charts

Detail Report of Workshop:

Title: Webinar on keep a goal and work on it

Resource person: Ms. Supriya Yeole, Software Engineer HSBC Software development, Pune.

Students have attended this workshop: 72

About workshop:

In the lives of all individuals at some point of time, they do feel worried and concerned about their careers, job opportunities that are available to them and their future lives. When a child is young and is about to get enrolled in a preparatory school, then his parents feel anxious that which would be the best play school for their child to get admitted into, hence they seek guidance and counselling regarding the bringing up of their child in an improved manner from experts, professionals and even their close friends and relatives, therefore, at the initial stage also counselling and guidance is essential for the child

and his parents. When the child reaches the age of ten years and above and is pursuing his formal schooling, then there are different subjects that he has to study such as mathematics, social science, science, English, Hindi, and also gets involved in other extracurricular activities such as art and craft, music, singing, dancing, sports and so forth; these extracurricular activities may take place in schools or even in other organizations outside school; all the academic areas and extracurricular activities for the children may not always take place in a smooth manner, they do face problems and difficulties, which may aggravate or upset them, therefore, in order to solve their problems they seek counselling and guidance from tutors, instructors, parents, relatives, friends and other professionals for the main purpose of improving their performance and doing well in all the activities that they are engaged into. Therefore, it has been understood that counselling and guidance is also imperative for children who are young and teenagers.

Conclusion: Career guidance will help the students to fulfil their aspirations by setting up realistic goals.
