## **CAREER GUIDANCE**

**Webinar on “keep a goal and work on it”**

**The Online webinar conducted on 02-07-2021 in VPS  
college of Arts, Science and Commerce-Lonavala.  
B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.).**

## **Report of “Webinar on keep a goal and work on it”.**

The Department of Computer Science, VPS college of Arts, Science and Commerce-Lonavala. B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.). Organized “One day Workshop on “**Webinar on keep a goal and work on it**” on 02/07/2021.

Career guidance is the guidance given to individuals to help them acquire the knowledge, information, skills, and experience necessary to identify career options, and narrow them down to make one career decision.

### **Detail Report of Workshop:**

**Title:** Webinar on keep a goal and work on it

**Resource person:** Ms. Supriya Yeole, Software Engineer HSBC Software development, Pune.

**Students have attended this workshop:** 72

### **About workshop:**

In the lives of all individuals at some point of time, they do feel worried and concerned about their careers, job opportunities that are available to them and their future lives. When a child is young and is about to get enrolled in a preparatory school, then his parents feel anxious that which would be the best play school for their child to get admitted into, hence they seek guidance and counselling regarding the bringing up of their child in an improved manner from experts, professionals and even their close friends and relatives, therefore, at the initial stage also counselling and guidance is essential for the child

and his parents. When the child reaches the age of ten years and above and is pursuing his formal schooling, then there are different subjects that he has to study such as mathematics, social science, science, English, Hindi, and also gets involved in other extracurricular activities such as art and craft, music, singing, dancing, sports and so forth; these extracurricular activities may take place in schools or even in other organizations outside school; all the academic areas and extracurricular activities for the children may not always take place in a smooth manner, they do face problems and difficulties, which may aggravate or upset them, therefore, in order to solve their problems they seek counselling and guidance from tutors, instructors, parents, relatives, friends and other professionals for the main purpose of improving their performance and doing well in all the activities that they are engaged into. Therefore, it has been understood that counselling and guidance is also imperative for children who are young and teenagers.

**Conclusion:** Career guidance will help the students to fulfil their aspirations by setting up realistic goals.

**A Two Day Workshop on  
“Machine learning through Python”**

**The workshop conducted by Electronics department on  
09-12-2019 & 10-12-2019  
in VPS college of Arts, Science and Commerce-Lonavala.  
B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.).**

## **Detail Report of Workshop:**

**Title: Machine learning through Python**

**Resource person: Trainers from ROBOSOL Mumbai**

**About workshop: “Machine learning through Python”:**

The Department of Computer Science, VPS college of Arts, Science and Commerce-Lonavala. B.B.A.(Comp.Application)& B.Sc.(Comp.Sci.). Organized “Two days Workshop on “Machine learning through Pythons” during 09-12-2019 & 10-12-2019.

Machine Learning (ML) is basically that field of computer science with the help of which computer systems can provide sense to data in much the same way as human beings do. In simple words, ML is a type of artificial intelligence that extracts patterns out of raw data by using an algorithm or method.

Python programming language is having the features of Java and C both. It is having the elegant ‘C’ code and on the other hand, it is having classes and objects like Java for object-oriented programming. It is an interpreted language, which means the source code of Python program. Would be first converted into byte code and then executed by Python virtual machine.

## **Topics of Workshop:**

- Installing Python
- Strengths and Weaknesses of Python
- Why Python for Data Science?
- Jupiter Notebook

**Total number of Participants: 72**

## **A Two Day Workshop on “Internet of Things”**

**The workshop conducted on 26-12-2019 & 27-12-2022 in  
VPS college of Arts, Science and Commerce-Lonavala.**

**B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.).**

## **Report of Workshop on Internet of Things:-**

The Department of Electronics, VPS college of Arts, Science and Commerce-Lonavala. B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.). Organized “Two days Workshop on “**INTERNET OF THINGS**” during 26/12/2019 to 27/12/2019.

“If you think that the internet has changed your life, think again. The IOT is about to change it all over again!”

Internet of Things is a new revolution of the Internet. A world where the real, digital and the virtual are converging to create smart environments that make energy, transport, cities and many other areas more intelligent. A device become a smart device is called IOT. Now a days there are many android and server based application.

All the faculty and staff members actively participated in the event to make it a grand success.

### **Detail Report of Workshop:**

**Title:** Internet of Things

**Resource person:** Mr. Bhavesh Ahire

### **About workshop: (What is Internet of Things?)**

It's a global network infrastructure, linking physical and virtual objects using cloud computing, data capture, and network communications. It allows devices to communicate with each other, access information on the Internet, store and retrieve data, and interact with users, creating smart, pervasive and always-connected environments.

The Internet of Things (IoT), sometimes referred to as the Internet of Objects, will change everything—including ourselves. This may seem like a bold statement, but consider the impact the Internet already has had on education, communication, business, science, government, and humanity. Clearly, the Internet is one of the most important and powerful creations in all of human history. Now consider that Internet of Things represents the next evolution of the Internet, taking a huge leap in its ability to gather, analyse, and distribute data that we can turn into information, knowledge, and,

ultimately, wisdom. In this context, Internet of Things becomes immensely important.

Duration: It's a Three day workshop From 26/12/2019 to 25/12/2019  
In this Two-day course, student gained valuable hands-on experience.

## **Students have attended this workshop: 98**

### **Topics covered in this Workshop:**

#### **Day 1**

1. Introduction to Embedded System
2. Introduction to 8051 family
3. Arduino programming
4. Interfacing of seven segment Display with Arduino
5. Interfacing of sensors like LDR with Arduino

#### **Day 2**

1. Introduction to IOT
2. Introduction to Rajberry pi
3. Rajberry pi Board Explanation
4. Formatting SD card and Installing operating System
5. Controlling of GPIO Pins and Control LEDs with buttons on GPIO Pins
6. Mini Project

**Conclusion:** In this Workshop, how machine to machine connectivity is rapidly growing everywhere was discussed. Also the business benefits for connected devices and assets for remote location connectivity are instantly cleared.

**A One Day Workshop on**  
**“BOOT CAMP for Penetration testing”**  
**The workshop conducted on 04-08-2018.**

**In VPS college of Arts, Science and Commerce-Lonavala.**

**B.B.A.(Comp.Application) & B.Sc.(Comp.Sci.).**

## **Detail Report of Workshop:**

### **Title: Workshop on Boot camp for penetration Testing:-**

The Department of Computer Science, VPS college of Arts, Science and Commerce-Lonavala. B.B.A.(Comp.App) & B.Sc(Comp.Sci.).

Organized “Two days Workshop on “**Boot camp for penetration testing**” during 04-08-2018.

**Resource person:** Boot camp learning academy

### **About workshop:**

In this 1-day boot camp, you have learned everything there is to know about penetration testing, from the use of network reconnaissance tools to the writing of custom zero-day buffer overflow exploits. The goal of workshop is to help you master a repeatable, documentable penetration testing methodology that can be used in an ethical penetration testing or hacking situation.

This penetration testing training course has a significant return on investment: you walk out the door with hacking skills that are highly in demand.

Testing methodologies-

- Security testing methodologies
- The ethical hacking profession
- Planning and scoping an engagement
- Legal and compliance consideration
- Abusing DNS
- Security testing methodologies

**Students have attended this workshop:45**

**Conclusion:** A penetration test report provides a detailed and comprehensive analysis of the system's vulnerabilities. It will also detail how to mitigate those issues, including recommendations for patching, hardening or locking down specific systems where needed.
